Problem 1 — School Holiday Notice

Scenario

A school wants to publish an important holiday announcement on its website. The school management has provided the following design to the development team.

Your task is to **recreate the UI shown below using HTML and Inline CSS**.

Reference UI

Requirements

1. School Header

Create:

- School name
- Tagline

Apply:

```
background-colorcolorcolortext-align
```

School name and tagline should be **center aligned**.

2. Holiday Notice

Create:

- `h2` → Holiday Notice
- Paragraph containing the announcement

The heading should be:

```
center
```

The paragraph should be:

```
justify
```

This gives students practice with the difference between **center alignment** and **justified text**.

3. Teacher's Day Message

Create:

```
Wishing all our teachers a very  
Happy Teachers' Day!
```

This section should use:

```
background-color:color;text-align:center;
```

4. Footer

Create:

```
Stay Safe, Stay Happy!          - School Management
```

Use:

```
text-align:right;
```

5. Color Requirements

Students must use all three methods:

Color name

```
color:white;
```

RGB

```
background-color:rgb(230, 240, 250);
```

HEX

```
background-color:#1565C0;
```

Problem 2 — Restaurant Special Menu

Scenario

A restaurant wants to create a simple promotional menu page for its customers. The restaurant has provided the following UI design.

Reference UI

Tasty Bites Restaurant		
Good Food Makes a Better Mood		
Our Special Dishes		
Dish Name	Type	Price
Margherita Pizza	Veg	₹249
Paneer Butter Masala	Veg	₹279
Chicken Biryani	Non-Veg	₹299
Chocolate Brownie	Dessert	₹149
Visit Us & Enjoy Delicious Food!		
Open Daily: 11 AM – 11 PM		Thank You!

The reference screenshot should contain:

- Dark red restaurant header
- Light background for menu
- Orange table heading
- Light pink promotional section
- Dark footer

Requirements

1. Restaurant Header

Display:

```
Tasty Bites Restaurant  
Good Food Makes a Better Mood
```

Both should be:

```
text-align:center;
```

Use a HEX color for the header background.

2. Special Dishes

Create a heading:

```
Our Special Dishes
```

Center it.

Then create a table with:

Dish Name	Type	Price
Margherita Pizza	Veg	₹249
Paneer Butter Masala	Veg	₹279
Chicken Biryani	Non-Veg	₹299
Chocolate Brownie	Dessert	₹149

Use:

```
<table><tr><th><td>
```

Students should apply background and text colors to the table/header using inline CSS.

3. Promotional Message

Create:

Visit Us & Enjoy Delicious Food!

Center align it.

Give this section a different background color.

4. Footer

Create:

Open Daily: 11 AM – 11 PM

Align this text:

```
text-align:left;
```

And:

Thank You

Align it:

```
text-align:right;
```

This is a nice way to make students understand how `text-align` affects text inside an element.

5. Color Requirements

Students must use:

```
At least 2 color names  
At least 2 RGB colors  
At least 2 HEX colors
```

Problem 3 — Travel Destination Promotion

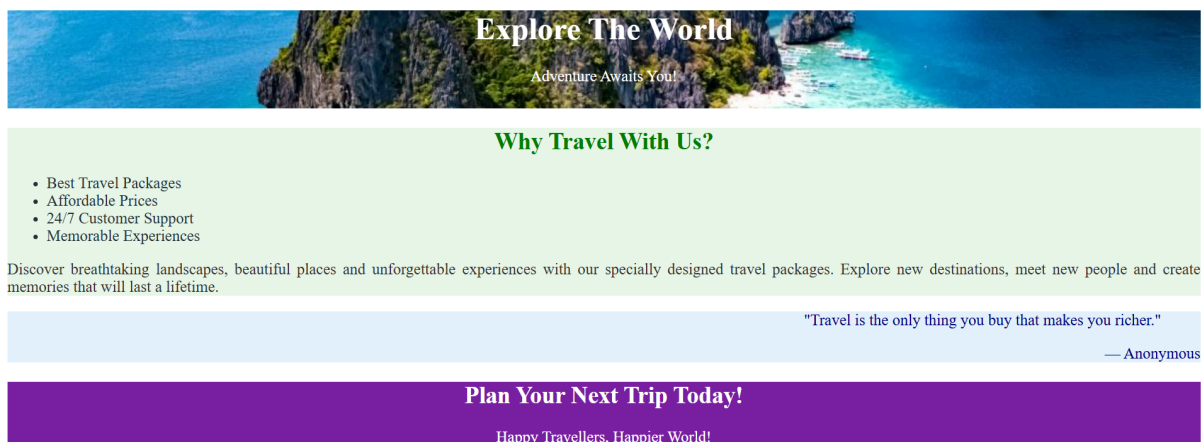

This should be the **slightly harder problem** because students now have to combine their previous HTML knowledge with today's CSS.

Scenario

A travel company wants to promote a tourist destination through a simple webpage.

The company has provided the following design.

Reference UI

The screenshot should have:

- A travel image
- Blue/dark background for the main heading
- Light-colored information section
- Different color for the quote
- Purple/pink promotional footer

Requirements

1. Travel Image

Use an image related to:

- mountains

- beach
- city
- nature
- tourism

Example:

```
<imgsrc="travel.jpg"alt="Beautiful Travel Destination">
```

2. Main Heading

Create:

```
Explore The World  
Adventure Awaits You!
```

The heading should be:

```
text-align:center;
```

Use:

- HEX background color
- color name for text

3. Why Travel With Us

Create:

```
Why Travel With Us?  
  
• Best Travel Packages  
• Affordable Prices  
• 24/7 Customer Support  
• Memorable Experiences
```

Use a `<ul>` .

The heading should be centered.

The list itself should be left aligned.

4. Travel Quote

Use:

```
<blockquote>
```

with:

```
"Travel is the only thing you buy that makes you richer."
```

The quote should be:

```
text-align:right;
```

Use a different background and text color.

5. Travel Description

Add a paragraph explaining the destination.

Example:

Discover breathtaking landscapes, beautiful places and unforgettable experiences with our specially designed travel packages.

The paragraph should use:

```
text-align:justify;
```

This ensures students use **all four values of** `text-align` in one assignment.

6. Footer

Create:

PLAN YOUR NEXT TRIP!

Happy Travellers, Happier World!

Both should be centered.

7. Color Requirements

Students must use:

Color Name
RGB
HEX

at least twice each.

Problem 4 — Corporate Annual Report & Investor Announcement

Scenario

A technology company is preparing a webpage for its **Annual Business Report 2026**. The page will be viewed by investors, employees, customers, and business partners.

The design team has provided the following UI reference. Your task is to recreate the design using **HTML + Inline CSS only**.

Reference UI

TECHNOVA SOLUTIONS

[Home](#) | [About Us](#) | [Annual Report](#) | [Investors](#) | [Contact](#)

Our Performance

Technova Solutions achieved significant growth during the financial year 2025–26. Our focus remained on innovation, customer satisfaction and sustainable growth. We continued to invest in technology, employee development and customer-focused solutions.

Key Business Highlights

REVENUE

CUSTOMERS

EMPLOYEES

₹125 Cr

50,000+

2,500

Financial Summary

Year	Revenue	Expenses	Profit
2024	₹80 Cr	₹55 Cr	₹25 Cr
2025	₹102 Cr	₹68 Cr	₹34 Cr
2026	₹125 Cr	₹79 Cr	₹46 Cr

CEO Message

"Our growth is driven by innovation, trust and our commitment to our customers."

— Chief Executive Officer

Investor Information

Investors can contact our Investor Relations team for additional information regarding financial performance, company announcements and reports.

Investor Relations

Requirements

1. Header

Create:

- Company name
- Annual Report title
- Tagline

Use:

- `background-color`
- `color`
- `text-align: center`

Use a **HEX color** for the main company header.

2. Performance Section

Create a detailed paragraph explaining company performance.

The paragraph must use:

```
text-align:justify;
```

Students should understand why `justify` is more appropriate for a long paragraph than `center`.

3. Business Highlights

Create three business highlights:

- Revenue
- Customers
- Employees

Example:

```
REVENUE
₹125 Cr
```

Students must use different colors for the labels and values.

Use at least:

- 1 color name
 - 1 RGB color
 - 1 HEX color
-

4. Financial Table

Create the table:

Year	Revenue	Expenses	Profit
2024	₹80 Cr	₹55 Cr	₹25 Cr
2025	₹102 Cr	₹68 Cr	₹34 Cr
2026	₹125 Cr	₹79 Cr	₹46 Cr

Requirements:

- Table heading should have a background color.

- Header text should have a different color.
 - Financial values should be properly aligned.
 - Use at least one RGB color.
 - Use at least one HEX color.
-

5. CEO Message

Create a `<blockquote>`.

Example:

"Our growth is driven by innovation, trust and our commitment to our customers."

CEO name should be aligned to the **right**.

So students must use:

```
text-align:right;
```

6. Investor Form

Create a form containing:

- Full Name
- Email
- Phone
- Interested In → `<select>`
- Investment Area → suitable input options
- Message → `<textarea>`
- Consent checkbox
- Submit button

The form heading should be centered.

7. Footer

Create:

```
© 2026 Technova Solutions  
Investor Relations →
```

Use:

```
text-align:right;
```

Also require students to use the HTML entity:

```
&copy;
```

CSS Challenge

Students must use **all four**:

```
text-align:left;text-align:right;text-align:center;text-align:justify;
```

And all three color methods:

```
Color Name  
RGB  
HEX
```

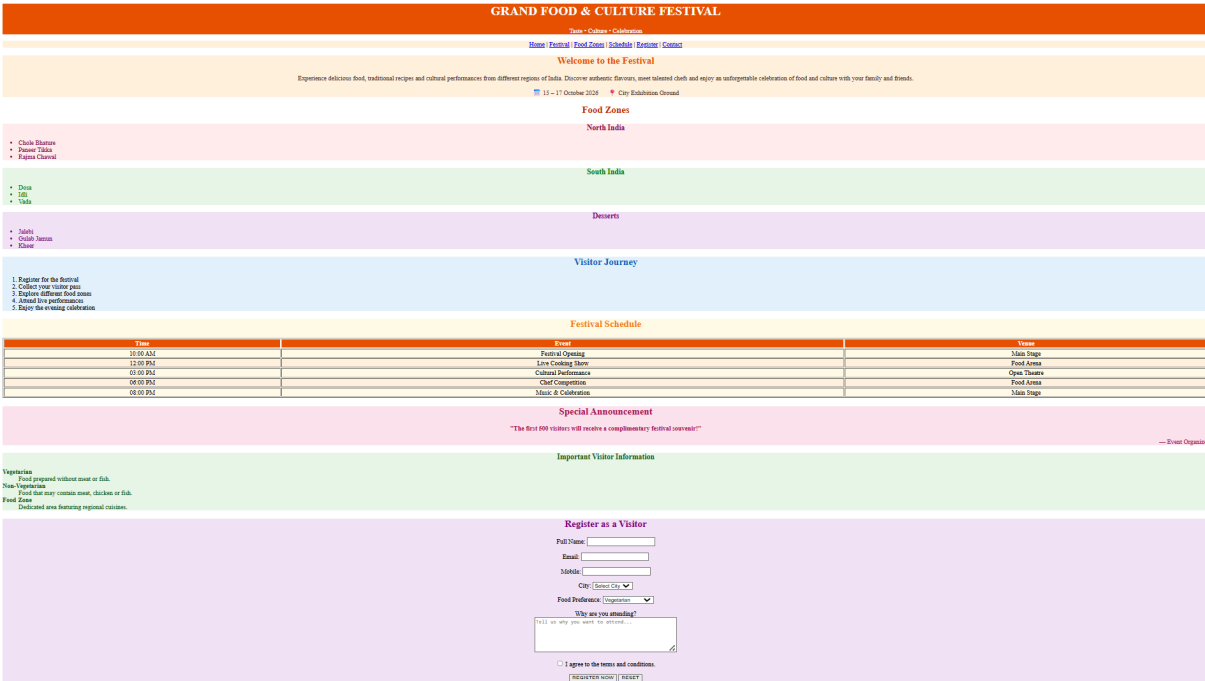

Problem 5 — Food Festival Event Landing Page

Scenario

A city is organizing a "**Grand Food & Culture Festival 2026**". The event organizer needs a promotional webpage containing event information, food categories, schedule, special announcements, location details, and visitor registration.

Your task is to recreate the following UI using **HTML and Inline CSS only**.

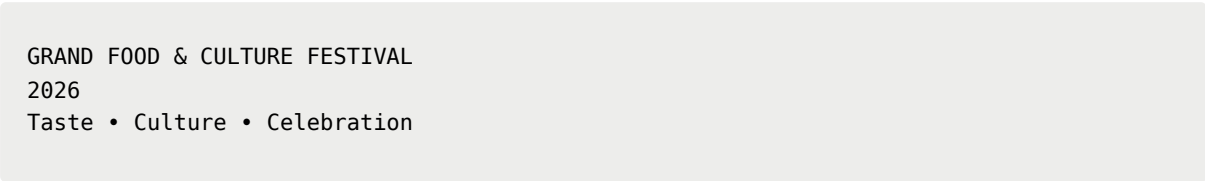

Reference UI

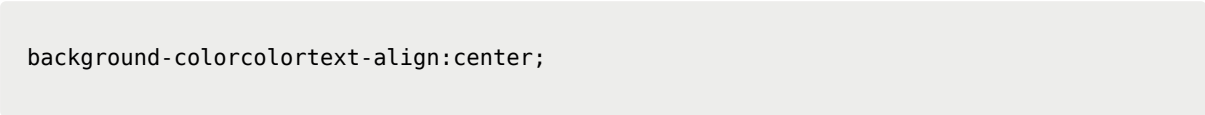

Requirements

1. Festival Header

Create:

The complete header should have:

Use a **HEX color** for the background.

2. Welcome Section

Create a detailed paragraph explaining the festival.

For example:

Experience delicious food, traditional recipes and cultural performances from different regions of India.

The paragraph must use:

```
text-align:justify;
```

Add:

 15 – 17 October 2026
 City Exhibition Ground

You can use suitable HTML entities where applicable.

3. Food Zones

Create three categories:

North India

Use `<ul>`:

- Chole Bhature
- Paneer Tikka
- Rajma Chawal

South India

- Dosa
- Idli
- Vada

Desserts

- Jalebi
- Gulab Jamun
- Kheer

Each category should have a different background color.

Students must use:

- Color name
- RGB
- HEX

across these sections.

4. Festival Schedule

Create a table:

Time	Event	Venue
10:00 AM	Festival Opening	Main Stage
12:00 PM	Live Cooking Show	Food Arena
03:00 PM	Cultural Performance	Open Theatre
06:00 PM	Chef Competition	Food Arena
08:00 PM	Music & Celebration	Main Stage

Requirements:

- Heading should be centered.
 - Table header should have background color.
 - Header text should have a different color.
 - Appropriate alignment should be used for table content.
-

5. Special Announcement

Create a `<blockquote>` :

|"The first 500 visitors will receive a complimentary festival souvenir!"

The quote should be:

```
text-align:center;
```

But the organizer name should be:

```
text-align:right;
```

This forces students to understand that **different elements can have different alignment**.

6. Registration Form

Create:

Personal Information

- Name
- Email
- Mobile
- City → `<select>`

Food Preference

Use:

```
Vegetarian  
Non-Vegetarian  
Vegan  
No Preference
```

Purpose

Use `<textarea>`:

```
Why are you attending the festival?
```

Agreement

Create:

```
☐ I agree to the terms and conditions
```

Use:

```
&copy; &reg; &amp;
```

where appropriate in the webpage.

7. Footer

Create:

```
© 2026 Grand Food Festival  
Contact Us →
```

Use:

```
text-align:right;
```

Happy Coding!
