

CSS - Selector Assignment

PROBLEM 01 — Movie Listing Portal

A movie-booking platform wants a **Now Showing** section where users can view upcoming movies and book tickets.

Task

Recreate the **provided reference image** using **HTML + Internal CSS**.

Requirements

Create **6 movie cards** arranged in **2 columns and 3 rows**.

Each movie card must contain:

- Movie poster
- Movie name
- Release date
- **Book Tickets** button

Use these movies:

1. ET (2022)
2. Jhund
3. Gangubai Kathiawadi
4. Radhe Shyam
5. Uncharted
6. The Batman

Example:

ET (2022)

Releasing on 11 Mar, 2022

[Book tickets]

CSS Selector Requirements

Use **Internal CSS** and demonstrate:

Universal Selector
Element Selector
Class Selector
ID Selector
Grouping Selector

Use selectors appropriately instead of applying inline styles.

Design Requirements

Match the reference image for:

- Two-column layout
- Card border
- Movie image placement
- Spacing
- Movie title styling

- Release-date text
- Button styling
- Button border-radius
- Card spacing
- Overall alignment

Important

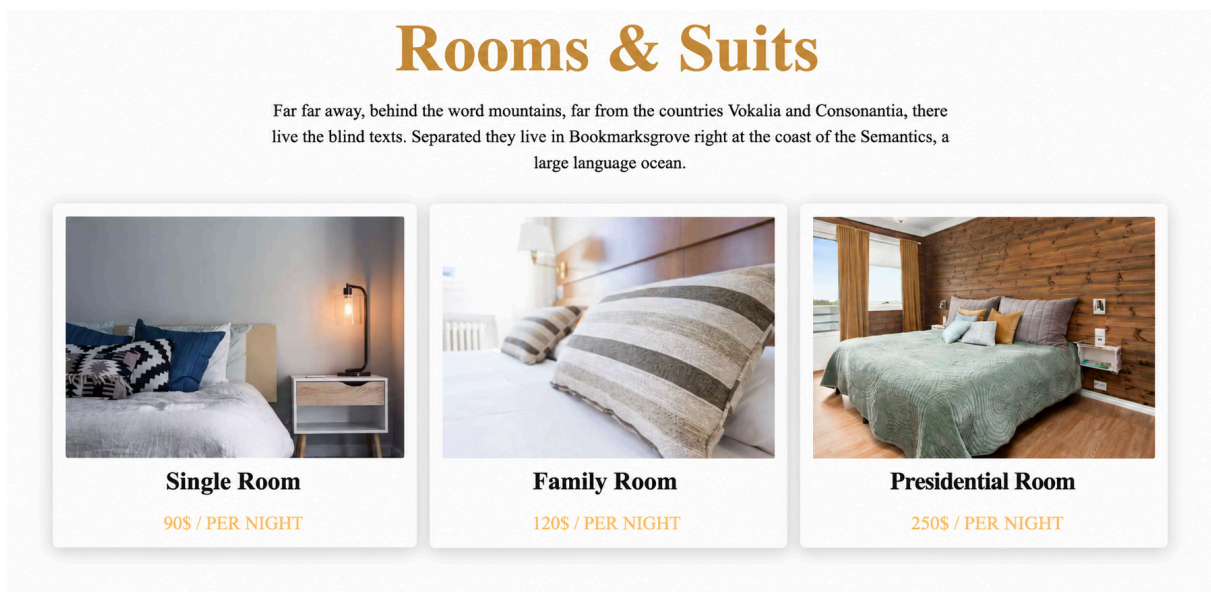

The provided screenshot is the visual target. Recreate the UI as closely as possible using HTML and Internal CSS. Do not use inline CSS.

PROBLEM 02 — Hotel Rooms & Suites

A hotel website wants to showcase its available **Rooms & Suites** in a clean and elegant layout.

Task

Recreate the **provided reference image** using **HTML + Internal CSS**.

Requirements

Create **3 room cards**:

1. Single Room — **\$90 / PER NIGHT**

2. Family Room — \$120 / PER NIGHT

3. Presidential Room — \$250 / PER NIGHT

Each card must contain:

- Room image
- Room name
- Price per night

Also create:

- Main heading: **Rooms & Suits**
- Short description below the heading

Design Requirements

Match the reference for:

- Centered heading
- Description alignment
- Three-column layout
- Image size
- Card spacing
- Card background
- Box shadow
- Text alignment
- Room name styling
- Price styling

Important

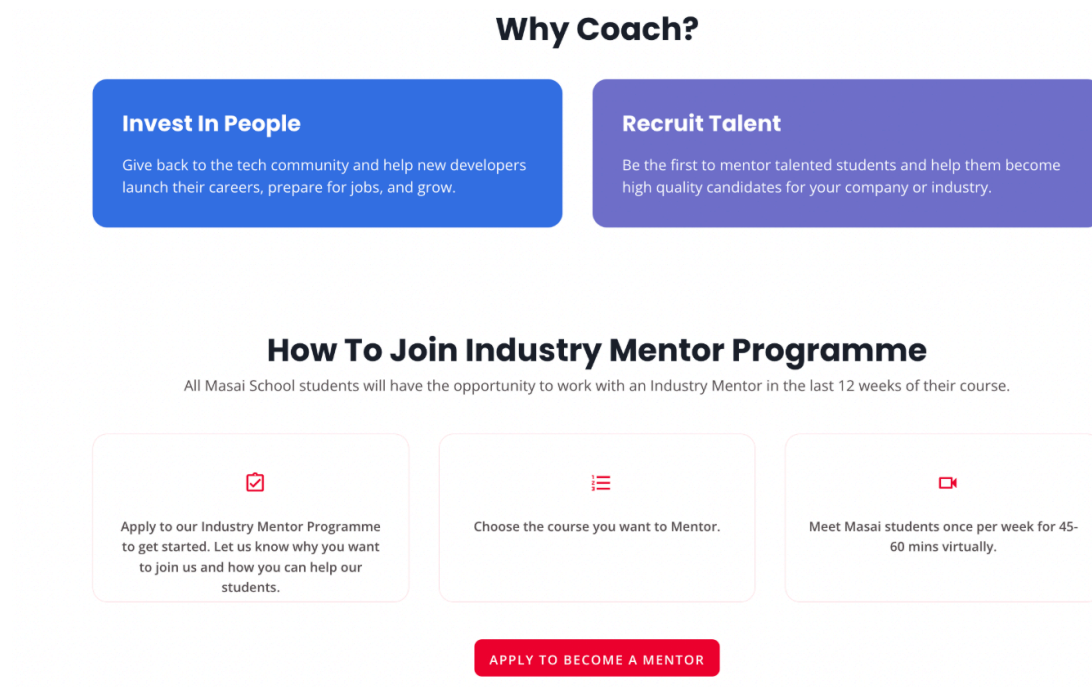

Use the provided screenshot as the visual reference. Recreate the UI as closely as possible using only the CSS concepts taught in class.

PROBLEM 03 — Industry Mentor Programme

An education platform wants to create an **Industry Mentor Programme** section to attract experienced professionals and explain how the programme works.

Task

Recreate the **provided reference image** using **HTML + Internal CSS**.

Requirements

Create:

Why Coach?

Two sections:

- Invest In People
- Recruit Talent

Then create:

How To Join Industry Mentor Programme

Include **3 step cards**:

1. Apply to the Industry Mentor Programme
2. Choose the course you want to Mentor
3. Meet students once per week

Add a button:

APPLY TO BECOME A MENTOR

Design Requirements

Match the reference for:

- Heading alignment
- Two large colored information boxes
- Three step cards
- Card borders and rounded corners
- Spacing between sections
- Text alignment
- Button styling
- Overall colors and appearance

CSS Concepts

```
color
background-color
text-align
margin
padding
border
border-radius
box-shadow
```

Use **Internal CSS only**.

Important

The provided screenshot is the visual reference. Recreate the UI as closely as possible using the CSS concepts taught in class.

PROBLEM 04 — Interactive Periodic Table

- Element box sizes
- Spacing between elements
- Different element colors
- Borders
- Text alignment
- Silicon highlighted box
- Overall positioning and appearance

CSS Concepts

```
color
background-color
text-align
margin
padding
border
border-radius
box-shadow
```

Use **Internal CSS only**.

Important

The provided screenshot is the visual reference. Recreate the layout as closely as possible using the HTML and CSS concepts taught in class.
